❖ Institute Profile-

College Name: Shri Chhatrapati Shivaji Maharaj College of engineering, Ahmednagar

College Details:

During the early 20th century, education facilities were mainly available in big cities. Secondary level education was not available at tehsil and village level. Those interested have to move to the district headquarters for pursuing education. At this place the students faced difficulties in obtaining proper residential facilities. Understanding this difficulty the trustees of that time took a bold decision and started boarding for such students at Ahmednagar, a district place. This was established in the year 1918. The trustees started this boarding by making self-contributions. There was no help from government. Recognizing the noble activity the Late Rajashri Shau Maharaj of Kolhapur started sending yearly grants, in the memory of the Maharshi Chouthe Chhatrapati Shivaji Maharaj who was killed in captivity at Ahmednagar. Slowly and steadily the boarding became popular with the masses of the district and the number of boarders increased appreciably. This success gave rise to the idea of starting a residential school. Thus the Society was registered under the Society Act 1860 vide Registration No. S/2894 of 1953/1954 and a Public Trust under Bombay Public Trust Act 1950 vide Registration No E-14 of 1953. Over the years the society engaged itself in the establishment of educational facilities in rural, hilly and far off and rural places in the Ahmednagar district. The society is managed by eminent board of trustees. Their main area of work includes social activities with emphasis on establishing, managing and developing educational units. The trustees thus have a vast and rich experience in the promotion of education.

In the era of globalization, knowledge is power. Engineering Education plays a vital role in nation building, corporate sectors and industries. We strongly believe that students, if properly nurtured and educated, can become important assets of society and nation. Keeping in mind, that the student is the focal point of all activities of our institute. Desire, Quality Education, Innovation, Excellence and Dedication are 'Panchsutras' of the institute. All efforts will be directed to make overall development of students to face challenges of corporate world, industries and nation. Our basic objective is to impart quality education. The institute is incorporated with all requisite laboratories, classrooms, workshop, seminar hall, computer centre, library with latest equipment's and software, national – international journal and e-library. We have a team of dynamic, talented and devoted teachers to help the students to bring the best out of them. We are also implementing soft skill and personality development programs to make our students more confident and competent. Once again I ensure of excellent technical education in the best possible way. The pollution free aesthetically developed campus with it's greenery is an ideal place for learning which you will certainly enjoy.

4.3 Training and Placement support to College:

❖ Institute Profile-

College Name: Shri Chhatrapati Shivaji Maharaj College of engineering, Ahmednagar

College Details:

During the early 20th century, education facilities were mainly available in big cities. Secondary level education was not available at tehsil and village level. Those interested have to move to the district headquarters for pursuing education. At this place the students faced difficulties in obtaining proper residential facilities. Understanding this difficulty the trustees of that time took a bold decision and started boarding for such students at Ahmednagar, a district place. This was established in the year 1918. The trustees started this boarding by making self-contributions. There was no help from government. Recognizing the noble activity the Late Rajashri Shau Maharaj of Kolhapur started sending yearly grants, in the memory of the Maharshi Choutha Chhatrapati Shivaji Maharaj who was killed in captivity at Ahmednagar. Slowly and steadily the boarding became popular with the masses of the district and the number of boarders increased appreciably. This success gave rise to the idea of starting a residential school. Over the years the society engaged itself in the establishment of educational facilities in rural, hilly and far off and rural places in the Ahmednagar district. The society is managed by eminent board of trustees. Their main area of work includes social activities with emphasis on establishing, managing and developing educational units. The trustees thus have a vast and rich experience in the promotion of education.

In the era of globalization, knowledge is power. Engineering Education plays a vital role in nation building, corporate sectors and industries. We strongly believe that students, if properly nurtured and educated, can become important assets of society and nation. Keeping in mind, that the student is the focal point of all activities of our institute. Desire, Quality Education, Innovation, Excellence and Dedication are 'Panchsutras' of the institute. All efforts will be directed to make overall development of students to face challenges of corporate world, industries and nation. Our basic objective is to impart quality education. The institute is incorporated with all requisite laboratories, classrooms, workshop, seminar hall, computer centre, library with latest equipment's and software, national – international journal and e-library. We have a team of dynamic, talented and devoted teachers to help the students to bring the best out of them. We are also implementing soft skill and personality development programs to make our students more confident and competent. Once again I ensure of excellent technical education in the best possible way. The pollution free aesthetically developed campus with it's greenery is an ideal place for learning which you will certainly enjoy.
