Event Report:-

The students of the college undertook a cleanliness campaign of the college campus on 15 October 2022. Under this programme, all the students from SCSMCOE NSS members had participated. Even teachers were the essential part of this drive.

The aim to organize this campaign was to make student aware about cleanness. Clean Campus promotes Hygiene, It improves hygiene level in campus and also helps to reduce the spread of sickness, maintaining a clean college environment sets a good example to students. Cleanliness encourages learners to take pride in their college, which makes them less likely to drop litter and as such they will potentially make a bigger effort to maintain their environment.

The cleanliness campaign was initiated by the Principal. Our Principal Dr. Y. R. Kharde started the program by cleaning the corners of the playground. Groups assigned as four departments namely civil engineering, computer engineering, mechanical engineering and electronics and telecommunication engineering into four group. Then the area of the college is divided into these groups for cleaning. Then the teachers and students followed suit. Some of us picked brooms and started our job. Some of the students did the dusting of the rooms. And others went to the playground and started picking wrappers lying scattered there. After collecting them they threw them in to the

dustbins. After doing this job for two to three hours, we all assembled in the seminar hall. Thereafter our Principal delivered the speech telling us the importance of sanitation. He also honored the sweepers of the school for their noble job. In the end we all took oath of keeping our home, locality, and city clean. It was a unique experience for all of us. We were curious to be the part of this great drive that could have transformed the face of our country forever. Prof. A.K. Kulkarni sir given the vote of thanks and declared program was ended.

Name of Event: Stress Busting: Living a Stress free Life

Name of Coordinator: Prof. G. S. Patil

Name of Guest : Mr. Girish Kukreja

Participants: Teaching, Non-Teaching Staff and Students

Date: 31/01/2023

Event Report:-

In order to make students aware about how to deal with stress Shri Chhatrapati Shivaji Maharaj College of Engineering had organized a guest lecture on Stress Busting : Living a Stress free life. The Name of the speaker was Mr. Girish Kukreja. Prof. G. S. Patil had introduced the speaker Mr. Girish Kukreja. After that Principal Dr. Y. R Kharde had felicitated the guest. It was attended by Teaching, Non-teaching faculty members and Students of the college with great enthusiasm.

Then after Mr. Girish Kukreja Sir started the session. He guided us how stress occurs. How our mental health is necessary. Try these 10 stress-busting suggestions: he given a ten keys of stress busting Be active. Exercise won't make your stress disappear, but it can reduce some of the emotional intensity that you're feeling, clearing your thoughts and letting you deal with your problems more calmly. Get started with exercise, take control If you think you cannot do anything about your problem, your stress can get worse.

That feeling of loss of control is one of the main causes of stress and lack of wellbeing. The act of taking control is empowering, and it is a crucial part of finding a solution that satisfies you and not someone else. Connect with people. A good support network of colleagues, friends and family can ease your work troubles and help you see things in a different way. The activities we do with friends can help us relax and relieve stress. Talking things through with a

friend may also help you find solutions to your problems. Read about 5 steps to mental wellbeing, including the benefits of connecting with other people. Have some "me time" Many of us work long hours, meaning we often don't spend enough time doing things we really enjoy.

It's important to take some time for socialising, relaxation or exercise. You could try setting aside a couple of nights a week for some quality "me time" away from work. Challenge yourself setting yourself goals and challenges, whether at work or outside, such as learning a new language or a new sport, can help build confidence. This may help you deal with stress. It can also make you want to do things and be active. Avoid unhealthy habits they might provide temporary relief, but in the long term, these crutches will not solve your problems. They will just create new ones.

Help other people if you do not have time to volunteer, try to do someone a favour every day. It can be something as small as helping someone cross the road or going on a coffee run for colleagues.

The event ended with a vote of thanks given by Prof. S. S. Aagale.
